Mr. John Gloag
Recruting Coordinator
Kingsway GFI Corporation
Walford
London

Dear Mr. Gloag,

I am a student in computer science at college in Toulouse. I am studying for a Master in mathematics and computer science which is roughly the equivalent of Master of Science in computer science. I have worked in alternation for 2 years as a web programmer. I was interested to learn that your company is now recruiting programmers. I wish to apply for the post of analyst programmer. I am interested in a position that will allow to combine my talents I have developped in both computer programming and management engineering. However, as you can see from the attached resume, I have extensive experience in many related fields, and I always enjoy new challenges.

I feel that it is important to me to maintain a practical, real-world perspective while developping my academic abilities. I am proud of the fact that I have improved my entire education through summer jobs related to my field of interest. This work experience enhanced my appreciation for the education I am pursuing. I find that I learn as much from my summer jobs as I do from academic studies. For exemple, during the summer of 2004, while working in a holiday camp, I gained a great deal of practical experience in the field of responsibilities. I found that my experience with the animators had throughly prepared me to work in team. Besides, I worked as an animator in an associative radio for 3 years. It demonstrates my ability to work successfully in teams. This experience has enhanced my oral and interpersonal communication skills.

Having said all this, I realize that your first consideration in hiring an applicant must not be the potential educational GFI can provide, but the skills and services the applicant has to offer. I hope the experience and education described in my resume suggest thow I might be of service to GFI.

I welcome the opportunity to disscuss with you how I might best assist GFI in fulfilling its present corporate needs. You can reach me at the above address or by phone at 06 54 78 25 16.

Thank you for your consideration of my enclose resume.

Yours faithfully,

David Montet
